

Producing competitive returns — in uncertain times

Annual Report

For the year ended 30 June 2012

**MEAT INDUSTRY EMPLOYEES'
SUPERANNUATION FUND**

Letter from the Secretary

The 2011/12 financial year has been a tough year for superannuation funds, with most large funds reporting very low or negative investment returns. MIESF was also affected by the poor investment market conditions for Australian and international shares. A return (net of investment costs and tax) of 2.2% was allocated to the accounts of members in the Main, Rollover and Spouse sections (in this report, "Accumulation Members") for the year in the Trustee Option.

The Trustee directors are pleased to see the Fund have a positive return following the 7.5% credited in 2010/11 and the 8.3% credited in 2009/10 to Accumulation Members in the Trustee Option. These have been sound returns, produced in uncertain times. However it must be acknowledged that these returns only catch up the negative returns in the previous two years.

Further details of the Fund's investments are given on pages 5, 6, 7 and 8. The Trustee regularly monitors the Fund's investment performance and also reviews the Fund's investment objectives and strategy. The Trustee directors have adopted a more cautious approach in the last three years by investing about one quarter of the Fund's assets in cash deposits with Australian banks. This reduces the overall impact of negative returns should they arise from the Fund's other investments.

Your superannuation is a long-term investment and members are urged to take a long-term view. People have differing ideas about what period is long-term. The returns achieved by Accumulation Members in the Trustee Option up to 30 June 2012 have averaged:

- 6.0% p.a. for 3 years
- 0.5% p.a. for 5 years
- 3.7% p.a. for 7 years
- 5.5% p.a. for 10 years
- 8.4% p.a. for 29 years

Please note that past performance is not a reliable indicator of future performance.

The administration fee of \$1 per member per week has been in place since January 2005. Unfortunately this will need to be increased to \$1.30 per member per week from 1 January 2013. The Fund's fees and other costs are described further on page 10 and MIESF remains one of the lowest cost superannuation funds in Australia. There are no exit or entry fees.

The Fund was created by the AMIEU and continues to be supported by the Union, which also provides help for the directors that it appoints to the Fund. (Refer to page 9 – Union Appointees). The Union is proud of its association with the Fund and its long-term achievements.

Paul Conway

Secretary, Meat Industry Employees' Superannuation Fund Pty Ltd and Secretary of the Victorian Branch of Australasian Meat Industry Employees' Union (AMIEU, or Union).

Disclaimer:

This annual report has been prepared by the Trustee to meet its legislative obligations under the Corporations Act 2001 (Cth). The information contained in this annual report does not take account of the specific needs, or personal or financial circumstances of any persons. Readers should obtain specialist advice from a financial adviser who is licensed to provide personal financial product advice before making any changes to their own superannuation arrangements or investments. You should also read carefully the Fund's Product Disclosure Statements.

The terms of your membership in the Fund are set out in the Fund's trust deed and, should there be any inconsistency between this annual report and the Fund's trust deed, the terms of the Fund's trust deed prevail. While all due care has been taken in the preparation of this report, the Trustee reserves its right to correct any errors and omissions.

All statements of law or matters affecting superannuation policy are up-to-date as at 1 July 2012.

This document contains general information about investments and investment performance. Please remember that past performance is not necessarily a guide to future performance. Investments can go up or down in value.

Issued by Meat Industry Employees' Superannuation Fund Pty Ltd (ABN 58 005 793 199) (AFSL 239953) as Trustee of the Meat Industry Employees' Superannuation Fund (MIESF) (ABN 17 317 520 544)

Letter from the Chairperson

Once again I am pleased to present MIESF's Annual Report.

Following the two years of negative returns in 2007/08 and 2008/09 and strong positive returns in 2009/10 and 2010/11, the 2011/12 year has been somewhat disappointing.

You can see however on page 3 that compared with other similar superannuation funds, MIESF's investment returns have been very competitive.

We remain surprised that more members contemplating retirement or semi-retirement have not started a MIESF Pension (see page 4 for more details). A rate of 2.4% was allocated to members' pension accounts in 2011/12.

In my letter in last year's Annual Report I referred to the upcoming changes to Australia's superannuation arrangements. Most superannuation funds will be required to offer a low cost, simple and efficient option to members for their Superannuation Guarantee contributions. We believe that MIESF has been providing something similar to what the new legislation requires for more than 25 years. We will advise members when changes are implemented in response to Government legislation.

The Fund allocates earnings in two half yearly amounts. This results in members who switch between the Fund's two investment options as at 31 December being allocated the earnings for their new option from the date the switch takes effect.

As you may know, the Fund is internally administered and members can call the Fund and speak to administrators who know the Fund and can answer members' queries. More members than usual phone the Fund when this report is delivered along with the Annual Benefit Statement. Please leave your name and number if you cannot be connected straight away and one of our staff will call you back.

It is now more important than ever that you advise the Fund if you change your address. See page 15 for details of the circumstances that the Fund will have to send your money to the Australian Taxation Office if we cannot contact you. So, please keep in touch.

On behalf of the directors, I acknowledge with thanks the hard work and dedication of our management team and staff and we look forward to their ongoing support during 2012/13.

John Kelly

Chairperson
Meat Industry Employees' Superannuation Fund Pty Ltd

What happened in 2011/12?

Improvement to the Fund's death cover

The Fund's Death Benefit is designed to give financial assistance to your dependants in the event of your death.

The Death Benefit is made up of your account balance plus death cover equal to \$200,000 if you are eligible. The \$200,000 is limited to \$100,000 in some circumstances. The death cover was increased from \$100,000 to \$200,000 with effect from 1 July 2011 and the cost to members was increased from \$3.00 per week to \$5.00 per week. Full details of the Death Benefit can be seen in section 8 of the Fund's Product Disclosure Statement dated 22 June 2012. This can be downloaded from miesf.com.au/pds.htm or you can phone the Fund and request a copy.

Positive investment returns - only just!

The 2011/12 financial year has been another tough period for investors.

For the 12 months to 30 June 2012, the average return (indicated by representative indices) of the main types of investments was approximately:

Australian shares	-7%
International shares	0%
Australian property shares	11%
Directly held property investments	9%
Fixed Interest	12%
Cash	5%

These returns do not include the impact of investment costs and tax.

Nearly all large superannuation funds in Australia invest more than half of their assets in shares and property and, as a result, many funds have allocated a very low or negative investment return to their members' accounts for the year.

MIESF delivered a return (net of investment costs and tax) of 2.2% for the year for Accumulation Members in the Trustee Option.

Competitive investment returns

The MIESF returns for Accumulation Members in the Trustee Option for various periods up to 30 June 2012 have been competitive. One measure of this is to compare them with the median (middle ranking) return of

"balanced" investment options of large superannuation funds with "growth" investments of between 55% and 75% in the SelectingSuper Survey (www.selectingsuper.com.au) as shown below. The MIESF Trustee Option generally has about 60% of its assets invested in "growth" assets.

Period up to 30 June 2012	MIESF Return % p.a.	SelectingSuper Survey Median % p.a.
1 year	2.2	0.5
3 years	6.0	6.1
5 years	0.5	-0.7
7 years	3.7	3.5
10 years	5.5	4.7

Some members have suggested that their superannuation would be better off invested in term deposits with a bank. This is obviously true for some individual years, but over longer periods a "balanced" portfolio should produce a higher return than cash deposits. The Fund's average return of 5.5% p.a. for the last 10 years can be compared with the return on the UBSW Bank Bill Index of 5.4% p.a., which would be 4.6% p.a. after the 15% superannuation tax rate.

No one knows when the fluctuations in the world's investment markets will diminish. Most commentators urge people to take a long-term view when considering the impact of these fluctuations on their retirement savings.

For the majority of members their superannuation is a long-term investment and it is important to be a patient investor and to focus on the long-term returns achieved by the Fund.

Member investment choice

With effect from 31 January 2009, the Trustee introduced a "High Growth" investment choice for members of the Main section and Rollover section of the Fund. More information is provided on pages 5 and 7 of this Annual Report. The return (net of investment costs and tax) was -0.8% for the year for the High Growth Option.

Boosting your retirement benefit

Have you considered a MIESF pension?

A MIESF Pension offers you an account where you can invest your superannuation in order to receive a regular income. Such a pension can offer you significant tax savings as well as favourable Social Security treatment.

MIESF's Pension section is open to members of the Fund who have reached age 55.

You do not have to retire permanently from your job before you can convert your super to a pension. Provided you are age 55 or over, you can purchase a MIESF Pension and "Transition to Retirement" at your own pace by continuing to work, reducing your working hours and supplementing your pay with regular pension payments (up to a maximum each financial year of 10% of your account balance at the start of that year).

Members over age 60 may also be able to boost their retirement savings by taking a transition to retirement pension and using the income as a substitute to finance salary sacrifice contributions to their on-going superannuation account.

You should consider the Fund's Product Disclosure Statement for the Pension section members dated 1 March 2011 before making a decision about this product.

Making your own contributions

You can increase the size of your retirement benefit by making your own contributions to MIESF. Even a few extra dollars per week, contributed over your working life can translate into thousands of dollars in the long-term. The contributions can be made on a pre-tax basis (also known as salary sacrifice) if permitted by your employer, or on an after-tax basis (also known as voluntary member contributions).

Members often ask which is the best way of making additional contributions. The correct answer depends on your individual financial situation, including your income level. From 1 July 2012 if your "total income" is less than \$31,920 per year (\$612 per week) you may be eligible to receive an extra "co-contribution" to your superannuation fund paid for by the Government of up to \$500 per year, depending on the amount of contributions that you make. The extra Government contributions have amounted to more than \$7 million for the MIESF members during the past seven years.

Your "total income" is your assessable income plus all reportable fringe benefits, plus salary sacrifice contributions made on your behalf. Your total income may be reduced by deductions from carrying on a business.

Your assessable income is your income before any deductions are allowed. Assessable income includes any salary payments received (including bonuses, annual or long service leave payments), gross investment income received and the taxable component of any withdrawals you make from superannuation in that financial year.

If you are considering making additional contributions, then you should try to qualify to receive the maximum co-contribution that is available to you. The table below shows the voluntary contribution that must be made to receive the maximum co-contribution at various levels of "total income". For example, if your "total income" is \$727 per week, the maximum co-contribution available is \$300 and this would be payable if you contribute at least \$600 per year from your after-tax pay, i.e., \$11.51 per week.

Once you have qualified to receive the maximum co-contribution available for your income, it is worth considering making additional contributions to the Fund by salary sacrifice, provided your employer permits this practice.

If your taxable income is between \$18,200 and \$37,000 per year (\$710 per week) making additional contributions by salary sacrifice reduces your tax and Medicare Levy by 20.5% of the contribution.

If your taxable income is between \$37,000 and \$80,000 per year, making additional contributions by salary sacrifice reduces your tax and Medicare Levy by 34% of the contributions.

The tax that you will pay in the Fund on the contributions made is 15%.

Employer contributions (including salary sacrifice contributions) are known as concessional contributions. Concessional contributions are taxed at 15% when paid into the Fund and are now limited to \$25,000 per person per annum. Contributions in excess of the limit will be taxed at 46.5%.

Assessable Income Plus Salary Sacrifice Contributions Plus Reportable Fringe Benefits		Maximum Co-contribution Available	Contribution to Receive Maximum Co-contribution
\$ per year	\$ per week	\$ per year	\$ per year
31,920 or less	612 or less	500	1,000
34,920	670	400	800
37,920	727	300	600
40,920	785	200	400
43,920	842	100	200
46,920 or more	900 or more	0	0

Where your super is invested

How your benefit works

MIESF is an industry fund open to all workers in the meat industry and employees of other participating employers. It is managed by a Trustee Board with equal representatives of the Union and employers. We operate as a non-profit organisation where all earnings belong to the members and are allocated accordingly. MIESF is a regulated superannuation fund. This means that it is subject to government regulations and can accept rollovers from other superannuation funds.

MIESF provides benefits for you and your dependants. Money that is contributed either by your employer or yourself is invested to provide your benefits.

The Fund operates on an accumulation basis where the benefits are based on the balance of your account when you leave MIESF. You can receive your benefits as a lump sum or as an income stream from the Pension section of the Fund.

Investment earnings are allocated to your account each year either at the time of benefit payment at the interim earnings rates or at MIESF's declared earnings rates at the end of the financial year. The earnings rates for each of the two investment options are determined by the Trustee and take into account both the cash earnings and movements in the market value of assets. As a result, the earnings rates may be either positive or negative. The declared earnings rates are net of tax and any investment related fees and allow for any adjustments to reserves. The calculation of the earnings rates and their crediting or debiting to members' accounts, is usually done in October each year and is based on two half yearly amounts. For information about your personal benefits, the earnings rates and entitlements in MIESF please refer to your Annual Benefit Statement.

Planning to leave?

If you leave MIESF before the next earnings rates are declared, your account will be credited or debited with the interim earnings rate(s) in your chosen investment option(s). They will apply for the period from the 30 June at which the last annual allocation of earnings was made. These interim earnings rates are based on the Trustee's expectations of the Fund's investment earnings for each investment option for that period. The rates are reviewed at least monthly.

Subject to satisfying the eligibility conditions, benefits may be withdrawn at any time during the year. Cheques are drawn twice monthly, but members are advised to check with the Fund Office before submitting their paperwork. You will be required to provide proof of identity when claiming a benefit. This is due to the increasing incidence of identity fraud in the community.

Member investment choice

Up until 31 January 2009, the Fund did not offer investment choice to members. All of the Fund's assets were invested in accordance with the investment objectives and strategy described below for the "Trustee Option".

With effect from 31 January 2009, the Fund offers Main section and Rollover section members an investment choice, which is referred to as the "High Growth Option". You can elect to have all or part of your account invested in this

option. You have the opportunity to switch into or out of the option twice a year, with effect from 30 June and 31 December. Any choice you make will apply to your current account balance and your future contributions.

If you wish to make an investment choice you need to complete the Member Investment Choice form and return it to the Fund at least one week before the switch date. There is a copy of the form at page 14 of this Annual Report.

The Trustee Option is the default option for the Fund. Members not electing to switch part or all of their account to the High Growth Option have their entire account balance invested in the Trustee Option.

Your Fund has guidelines for investing

The Trustee has an investment policy that sets investment strategy and objectives covering how and where the Fund's assets for each option will be invested. While having an objective and strategy is required by law, having a strategy helps ensure your Fund maximises investment returns while maintaining an acceptable level of risk. **Please note that the objectives are not a forecast or guarantee of future performance.** The investment policy also covers other related matters, such as appointment of investment managers and guidelines for investments in futures and options.

The Trustee regularly monitors the Fund's performance against its objectives and strategy and changes are made where necessary. A copy of your Fund's investment policy statement is available on request.

Investment objectives for the Trustee Option

The aim of the Trustee Option is to ensure the security of your retirement money and to provide a reasonable rate of return above bank rates of interest over the medium and long-term without taking undue financial risk. This is based on the Trustee's belief that members have a strong need to achieve a positive earning rate each year.

In order to achieve this aim, the following primary investment objectives have been established for the Trustee Option:

- Avoid a loss; that is to be in a position to declare a positive rate of return each year (short-term financial objective)
- Beat inflation; that is to achieve a rate of return which exceeds the rate of inflation (as measured by the CPI) by at least 2% per annum, after allowance has been made for tax and investment costs over periods of three years or more (medium-term financial objective).

The Trustee keeps these objectives under review to ensure that they continue to be appropriate, taking into account the Fund's past investment performance (see the table on page 6 under the heading "Investment performance of the Trustee Option"), the advice of its investment managers, and current and expected market conditions. The Trustee has developed an investment strategy which it considers is appropriate in order for the Trustee Option to achieve its investment objectives over the indicated timeframes.

However, you should note that the investment objectives for the Trustee Option do not constitute, nor should they be treated as, a guarantee of future performance. There is the risk that if market conditions change, the investment objectives may not be achieved.

Investment markets can both rise and fall, and for this reason a positive return cannot be guaranteed. These objectives had been achieved over the 25 years plus history of the Fund, until unfortunately, the short-term financial objective to avoid a loss each year was not met in 2007/08 and in 2008/09.

Detailed information about the other types of risks that can affect the Fund's investment performance is set out in the Fund's PDS.

Investment strategy for the Trustee Option

MIESF invests your money in a variety of assets with the objective of achieving a sound rate of return each year with an acceptable level of risk.

In establishing the strategy for the Trustee Option, the Trustee and the Investment Committee take into consideration the needs of investors in MIESF and the stated investment objectives. The state of the economy and financial markets are also taken into account.

The Investment Committee meets every month to review the investments.

In order to achieve this balance, the Fund invests in a number of different asset classes including property, Australian and overseas shares, private equity, infrastructure, bonds and cash.

The following table shows the allowable range and benchmark allocation for the Trustee Option. It also shows the actual allocation as at 30 June 2012 and 30 June 2011. The Trustee reduced the minimum for International Shares from 5% to 0% from January 2012.

	Mini- mum %	Bench- mark %	Maxi- mum %	30.06.12 %	30.06.11 %
Australian Shares	10	15	40	25	24
International Shares	0	10	25	3	6
Private Equity	0	5	10	3	3
Property	10	25	50	25	23
Growth Assets	25	55	75	56	56
Fixed Interest	10	30	50	16	13
Infrastructure	0	5	15	4	4
Cash	5	10	60	24	27
Debt Assets	25	45	75	44	44
Total		100		100	100

Investment performance of the Trustee Option

This table shows the Trustee Option's annual effective rate of net earnings after tax and investment costs allocated to members' accounts over the past ten years.

Year ended 30 June	Rate allocated to Main and Rollover and Spouse section accounts %	Rate allocated to Pension section accounts %
2012	2.2	2.4
2011	7.5	8.5
2010	8.3	8.3
2009	-11.2	-11.2
2008	-3.2	-3.2
2007	12.5	13.5
2006	12.0	13.25
2005	14.5	16.0
2004	11.0	12.0
2003	4.5	5.0
5-year compound average p.a.	0.5	0.7
10-year compound average p.a.	5.5	6.1

During the year ended 30 June 2012 the earnings rates allocated to Main and Rollover and Spouse section accounts in the Trustee Option were:

01/07/2011 – 31/12/2011 -2.2% p.a. (-1.1% for 6 months)

01/01/2012 – 30/06/2012 6.7% p.a. (3.3% for 6 months)

The compound effect of applying -2.2% p.a. for 184 days and 6.7% p.a. for 182 days is 2.2% for the year.

The earnings rates allocated to Pension section accounts were:

01/07/2011 – 31/12/2011 -2.2% p.a. (-1.1% for 6 months)

01/01/2012 – 30/06/2012 7.1% p.a. (3.5% for 6 months)

The compound effect is 2.4% for the year.

Investment strategies vary significantly between funds and investment options. The Trustee Option has a history of providing good returns from a conservative investment strategy with lower exposure to shares, than most others. However, you should be aware that past performance is not a guide to future performance. The average increase in the CPI for the 5 years ended 30 June 2012 was 2.8% p.a.

Investment objectives for the High Growth Option

The aim of this investment option is to provide members with a “high growth fund” with an exposure to Australian and International Shares and Listed Property Shares of around 90%. This option is designed to deliver higher long term returns to members, but is likely to experience significantly higher volatility than the Trustee Option with the probability of a loss possibly as often as every three or four years. The option may be suitable for those members who can tolerate a higher degree of risk and are prepared to take an investment horizon of at least five to seven years.

The investment objectives of the High Growth Option are:

- To provide capital growth over the long-term by investing in a portfolio of predominantly growth assets with minimal defensive asset exposure; and
- To achieve a total return after fees that is greater than the median (middle ranking) return of “growth” investment options in the SelectingSuper survey, over rolling five-year periods.

For the High Growth Option, the Trustee currently invests in the Vanguard® High Growth Index Fund. The Fund's Investment Committee and Trustee Board will review the use of this fund from time to time and may vary this investment at their discretion. You have no ability to select the underlying fund.

The High Growth Option has the following asset allocation strategy:

	Minimum %	Benchmark %	Maximum %
Australian Shares	42	44	46
International Shares	32	36	40
Property	9	10	11
Growth Assets	88	90	92
Fixed Interest – Australian	3	4	5
Fixed Interest – International	5	6	7
Cash	0	0	1
Debt Assets	8	10	12
Total		100	

The actual allocation as at 30 June 2011 and 30 June 2012 was the same as the benchmark allocation shown above.

Investment performance of the High Growth Option

The High Growth Option commenced from 31 January 2009. The investment return achieved by the Fund's High Growth Option was 4.3% for the 5 months from 31 January to 30 June 2009. Members who switched from the Trustee Option to 100% High Growth Option on 31 January 2009 achieved a return of -5.8% for the year ended 30 June 2009.

The High Growth Option's annual effective rate of net earnings after tax and investment costs allocated to members' accounts since 30 June 2009 are set out below. You can compare these returns with those achieved by the Fund's Trustee Option as shown on page 6.

Please note that past performance is not a reliable indication of future performance.

Year ended 30 June	Investment Return (%)
2012	-0.8
2011	9.5
2010	10.6
3-year compound average p.a.	6.3

During the year ended 30 June 2012 the earnings rates allocated for the High Growth Option were:

01/07/2011 – 31/12/2011 -12.1% p.a. (-6.1% for 6 months)

01/01/2012 – 30/06/2012 11.3% p.a. (5.6% for 6 months)

The compound effect is -0.8% for the year.

External Managers

Proportion of net assets as at 30 June

Investment manager or product	2012 (%)	2011 (%)
Hyperion Asset Management Limited	8.6	9.1
Perennial Value Management Limited	8.2	9.1
Vanguard International Shares Index Fund	1.9	0.0
Fidelity Worldwide Investment	0.8	4.3
Dexia Asset Management	0.0	0.9
Franklin Templeton Institutional	0.0	0.8
GBS Ventures (Private Equity)	0.4	0.4
Hawkesbridge (Private Equity)	1.8	1.6
IB Bioscience (Private Equity)	0.9	1.0
Unlisted Property Trusts	11.4	9.5
TPCG (Infrastructure)	4.2	3.8
Vanguard High Growth Fund	1.2	0.9

Other investments

The table above shows the proportions of the Fund's net assets that are managed by external managers. Much of the Fund's investing is undertaken and administered 'in-house', rather than by external investment managers.

Apart from the Australian equity portfolios managed by Hyperion and Perennial referred to above no individual investments by the Fund amounted to more than 5% of the Fund's net assets as at 30 June 2012.

Two of the unlisted property trusts are managed by Australian Unity and their combined value represents 6.4% of the Fund's net assets as at 30 June 2012.

Use of Derivatives

MIESF may use financial derivatives in three ways:

1. Fund managers may use futures and options as part of their risk control mechanism. The manager provides the Trustee with a Derivative Risk Statement setting out their usage.
2. The Fund may use forward currency purchases and sales so as to hedge the overseas currency risk. No hedge contracts were entered into in 2011/12.
3. Equities warrants may be used to assist the purchase of Australian shares and manage risk.

A Derivative Risk Statement has been prepared by the Trustee and is available upon request. Over the past 12 months Perennial Value Management Limited used derivatives as part of their management of an Australian equities portfolio for the Fund.

Fund Reserves

It is the Trustee's policy to distribute all investment earnings (or losses, if these should occur) after an allowance has been made for investment related costs, taxes and other expenses and any adjustments to reserves. The money in the reserve accounts is invested in accordance with the investment strategy for the Trustee Option described on page 6.

MIESF has set aside \$1.65 million as at 30 June 2012 to meet its Operational Risk Financial Requirement. This is a new statutory requirement to provide funding for losses incurred as a result of operational risks (not including investment or market risks).

MIESF also holds a minimal reserve which represents the unallocated portion of the Fund's assets. The unallocated assets are available to finance the costs of operating the Fund that are not met by deductions from members' accounts or the rate of earnings credited (or debited).

There is also a General Death Benefit Reserve to meet costs arising from adverse death benefit claims experience.

The table below shows MIESF's reserves over the last three years.

There was also a General Property Reserve of \$250,000 as at 30 June 2012 which is held to meet future property maintenance and repair costs.

Balance Date	Unallocated Assets \$	% of Net Assets	General Death Benefit Reserve \$	Op. Risk Reserve \$
30/06/12	611,949	0.11	2,100,000	1,650,000
30/06/11	686,449	0.12	2,100,000	-
30/06/10	463,869	0.09	1,100,000	-
30/06/09	475,810	0.10	1,100,000	-

Environmental, social and ethical considerations

The Trustee takes into account labour standards (but not environmental, social or ethical considerations) in the selection, retention and realisation of investments in the property sector. In particular, the Trustee requires that proper workplace agreements are in place and that appropriate Occupational Health and Safety standards are to be followed in respect of property development projects in which the Trustee makes a direct investment. This is a critical aspect in the Trustee's decision-making process when considering whether to invest in a particular property development project.

The Trustee, through its advisor, monitors the application of these labour standards through attendance at monthly Project Control Group meetings throughout the course of each property development project, and would seek to enforce relevant contractual obligations in respect of such matters if breaches were identified.

The Trustee does not take into account labour standards or environmental, social or ethical considerations in the selection, retention or realisation of investments within any other asset classes.

How your Fund works

Your Fund is run by a Trustee company Meat Industry Employees' Superannuation Fund Pty Ltd (ABN 58 005 793 199) and is subject to its governing legal document, the trust deed, and super laws. The Fund's trust deed has not been amended since 23 June 2011.

The Trustee ensures that your benefits are secure and that your rights as a member are protected. The Trustee must also provide you with regular information about your individual benefits and the ongoing management and financial condition of MIESF.

The Trustee operates the Fund in compliance with provisions of its trust deed and rules and all relevant legal requirements. The main laws which the Trustee is required to comply with are the *Superannuation Industry (Supervision) Act 1993* and the *Corporations Act 2001*. No penalties were imposed on the Trustee during the year.

The Australian Prudential Regulation Authority (APRA) has approved the Trustee as a holder of a Registrable Superannuation Entity Licence (L0001434) and the Australian Securities and Investments Commission (ASIC) has granted the Trustee an Australian Financial Services Licence (AFSL 239953).

The Trustee has developed a specific set of rules for the election and removal of the Fund's Trustee directors. A copy of these rules is available from the MIESF Office on request.

The MIESF Management Team

The MIESF management team runs the Fund on a day-to-day basis assisted by the Fund's service providers.

Paul Conway	Fund Secretary
Bill McRobert	Fund Manager
Chris Salamousas	Fund Accountant
Tracey Dunstone	Administration Manager
Jon Addison	Investment Manager
UHY Haines Norton	Auditors
Holding Redlich	Legal Advisers
JP Morgan Chase Bank	Custodian
Marek Petrovs	Property Consultant
Mercer	Actuarial

The Trustee

The Trustee is managed by a board of directors drawn from the AMIEU on behalf of members and representatives of participating employers. Both groups may nominate up to 11 directors each to the Board. The current directors are:

Union Appointees

Paul Conway*	Fund Secretary, Victorian Secretary, AMIEU
Graham Bird*	Former Fund & AMIEU Secretary
Wally Curran*	Former Fund & AMIEU Secretary
Charlie Donzow	NSW Secretary, AMIEU
Greg Leight	President, AMIEU Victoria
Brian Crawford	Queensland Secretary, AMIEU
Robert Slimmon ⁴	Works Delegate, Hardwicks

Employer Appointees

John Kelly* ¹	Formerly Gilbertsons
Joe Borg	Swift
Kent Dickens	Fletchers International
Robert Jackson*	Klipspringer Pty Ltd
Barry Smith* ²	MC Herd
Sonia Takla	Baiada
Bruce Ede ³	WAMMCO

- * Committee members
- 1 Chairperson Administration and Investment Committees
- 2 Chairperson Audit and Compliance Committee
- 3 Appointed 24 November 2011
- 4 Appointed 29 June 2012

Costs are carefully managed

The costs of running the Fund are managed carefully. This section shows fees and other costs you may be charged. These fees and costs may be deducted from your account, from the returns on your investment, or from the Fund's assets as a whole.

You need to take into account the impact of tax and insurance costs as well.

You should read all the information about fees and costs because it is important to understand their impact on your investment. The Fund's Product Disclosure Statements have more information.

Fees and other costs

Type of Fee or Cost	Amount	How and When Paid
Fees when your money moves in or out of the Fund		
Establishment fee: The fee to open your investment	Nil	Not applicable
Contribution fee: The fee on each amount contributed to your investment – either by you or by your Employer	Nil	Not applicable
Withdrawal fee: The fee on each amount you take out of your investment	Nil	Not applicable
Termination fee: The fee to close your investment	Nil	Not applicable
Management Costs		
The fees and costs for managing your investment	In relation to administration expense recovery and other fees: \$52 p.a. per member plus 0.48%* p.a. of your account balance when it is invested in the Trustee Option or 0.37% p.a. of your account balance when it is invested in the High Growth Option.	\$52 is deducted from your account balance at 30 June each year or pro rata at your date of exit from the Fund. 0.48%* or 0.37% p.a. of the Fund assets comes out of the fund earnings before determining the earnings rates.
Service fees**		
Investment switching fee: The fee for changing investment option	Nil	Not applicable

*The percentage is based on the average net assets of the Fund for the year ending 30 June 2012 and reflects costs for the 2011/12 financial year. These costs include investment management fees paid to external investment managers, the Fund's custodian and investment advisers. These costs reduce the return that would otherwise have been allocated to your account. The investment management fees paid to a manager may include performance fees when the investment return exceeds an agreed benchmark. For the year ending 30 June 2012 these performance fees amounted to 0.01% out of the 0.48% shown above. These costs also include 0.02% for the costs of protecting members with small account balances that were not able to be met from the \$52 p.a. paid by members with balances more than \$1,000 during 2011/12.

Fee increases

The Fund's fees include a dollar based administration fee of \$52 p.a. per member. This fee has been \$52 p.a. per member since 1 January 2005. The cost of implementing the changes to the Fund to comply with the big increase in government regulations applying to superannuation funds means this fee needs to increase to \$67.60 p.a. from 1 January 2013. The increase in this fee will be taken into account when the fee is deducted from your account balance at 30 June 2013, or in the pro rata deduction if you exit the Fund after 1 January 2013. MIESF remains one of the lowest cost superannuation funds in Australia.

The Trustee has the right to increase fees and charges without requiring your consent, provided at least 30 days' notice is provided to members before any material increase takes effect.

Tax

Any tax deductions obtained by the Fund, are passed onto members by increasing the Fund's total assets or reducing the deductions for administration costs and the cost of death cover.

**Family law fees apply as described below

An application for information (i.e. benefit valuation) in the format specified under the Family Law Act will cost \$200 plus GST. This cost will not be paid out of the Fund. It is charged by the Fund's administrator and payable by the person making the request at the time the request is made.

For more information about how family law legislation applies to superannuation you can contact the Fund Office.

MIESF cuts the cost of super

Death Cover costs

The cost of death cover is also passed on to members with this cover by a deduction from their accounts at the rate of \$5 per week from 1 July 2011. Please refer to the Fund's Product Disclosure Statement dated 22 June 2012 for more details.

Member protection

Federal Government legislation limits the amount of fees and charges that can be applied to certain small superannuation account balances ("member protection"). If your account balance is less than \$1,000 at the end of a member reporting period (30 June each year) or at your date of exit from the Fund and your account includes any employer superannuation guarantee contributions, the Trustee currently applies member protection to limit the administration fees deducted directly from your account in a member reporting period to the investment earnings credited to your account in that period. The cost to the Fund of this "protection" is met from the \$52 p.a. described above paid by members plus 0.02% of the Fund's net assets.

Member protection does not apply to tax or death cover charges.

Insurance protection

The Trustee takes out liability insurance on behalf of itself, its directors and your Fund as part of standard prudent business practice. The cost of this insurance is met by the Fund.

Special tax treatment

Investing in superannuation can be an effective way to save because superannuation fund earnings are taxed at a lower rate than many other forms of income. To get this tax advantage, your Fund must operate according to a strict set of laws.

To show that your Fund has followed these laws, the Trustee lodges a return each year with the Australian Prudential Regulation Authority.

The Trustee is unaware of any event that occurred during the year that would affect this special tax treatment. Any tax deductions obtained by the Fund, benefit members, by increasing the Fund's total assets or reducing the deductions for administration costs and the cost of death cover.

Who gets your super if you die?

The Fund pays approximately 50 death benefits per year.

The Trustee can decide to pay your death benefit to one or more of your dependants. If the Trustee decides you have no dependants, payment can be made to your legal personal representative who is administering your Estate.

If the Trustee is reasonably satisfied that you have no legal personal representative, the benefit may be paid to one or more individuals as determined by the Trustee.

Under the Fund's Trust Deed, the definition of dependant includes:

- Your **spouse** (including defacto spouse);
- Your **children** (including a step child, ex-nuptial child or adopted child, or a child born after your death);
- Any person with whom you had an interdependency relationship as defined by Superannuation Law; and
- Any other person who was wholly or partially **financially dependent** on you at the time of death or had a legal right to look to you for financial support.

An interdependency relationship exists between two people if they live together in a close personal relationship and one or each of them provides the other with financial and domestic support.

By completing the Change of Details & Nomination of Dependants form, you have the opportunity to advise the Trustee which dependants you wish to receive your death benefit. There is a copy of the form in this Annual Report if you wish to update it and send it back to the Fund.

Your nominations are not legally binding on the Trustee, but will act as a guide. In accordance with the Trust Deed, the Trustee has the absolute discretion to determine the benefit shares and proportions.

Financial summary

This is a summary of the Fund's unaudited accounts for the year ended 30 June 2012. The audit is expected to be completed by 31 October 2012. You can request a copy of the audited accounts and auditor's report from the Fund Office.

Statement of financial position as at 30 June 2012

	2012	2011
Assets

Change of Details & Nomination of Dependants

This form should be used to change a member's personal details such as address, dependants or to advise their tax file number.

Membership number

Section 1 – Members Personal Details

Mr Mrs Ms Miss

Given names

Surname

Previous Surname

Please provide a copy of Marriage Certificate or Deed Poll Certificate as proof of name change.

Postal address

Postcode

Residential address

Postcode

Date of birth

Tax File number

I authorise MIESF to disclose my tax file number when required. I have read the information on tax file numbers in the Product Disclosure Statement and in the current Additional Member Information Booklet and understand that I have the choice of supplying my tax file number but that adverse consequences may apply if I do not. I further understand that the Trustee will only use my tax file number for the correct purposes.

Section 2 – Nomination of Dependant Details

In the event of the death of a member, the benefit provided is payable at the Trustee's discretion, to one or more of the member's dependants, or where no dependant exists, to the member's legal personal representative. You may nominate one or more dependants to whom you would prefer your benefit to be paid, alternatively you may wish to nominate your estate.

A. I have no dependants and request the Trustee to pay the benefit to my estate OR

B. Full name of dependant	Relationship to member	Address	% of benefit
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

This nomination cancels any previous nomination made by me, and I understand that it is only an indication of my current wishes and is not binding on the Trustee of MIESF

Section 3 – Declaration and Signature

Your signature below indicates you have read, understood and agree with the following statements:

- I understand that my personal information will be handled by the Fund to provide and manage my superannuation and without this information the Fund may not be able to provide my superannuation benefits and choices. For this purpose my personal information may pass between the Fund and the Fund's professional advisers, insurers, government bodies, my employer and other parties as required, including the trustee of any other fund I may transfer to. I may access my information by contacting the Fund's Privacy Officer.
- I agree that until I give clear and complete instructions to the Trustee, any benefit due to me upon leaving my employer will be dealt with in the manner described in the PDS and current Member Additional Information Booklet, or as otherwise allowed under Superannuation Law.
- The information provided on this form is correct to the best of my knowledge and replaces any previous information I have provided.

Member Investment Choice

1. Please complete this form to choose your investment options for your current account balance and your future contributions.
2. New members can make an investment choice effective from date of joining MIESF provided this fully completed form is received by the Fund within one month of the Fund receiving the first contribution. If this form is received later than that, the investment choice will apply from the next switch date. The switch dates are each 30 June and 31 December.
3. This form can be used to make an investment choice at any switch date. The fully completed form must be received by the Fund at least one week before the next switch date in order to take effect from that date.
4. If you switch investments at 31 December, investment earnings for the period 1 July to 31 December will be credited or debited at the relevant interim earnings rate(s).

Section 1 – Your Details

SUPERANNUATION FUND**

What to do when you leave

Remember to claim your benefit

If you are about to leave work and want to take your super, make sure you contact the Fund Office promptly about your benefit payment.

Instead of transferring your benefit out of MIESF you can remain a member however it is important to make sure that we don't lose track of you.

Superannuation funds (including the Fund) must transfer a member's account balance to the Australian Taxation Office if it is "unclaimed money".

Your account balance will be unclaimed money if:

- you have reached age 65;
- the Fund has not received an amount in respect of you for at least 2 years; and
- after the end of the 5 years since the Fund last had contact with you, the Fund has been unable to contact you again after making reasonable efforts.

OR

- your account balance is less than \$200 and the Fund is not able to contact you.

OR

- there has been no activity on your account for the past 5 years and the Fund has insufficient records to identify you.

Under Division 3 of Part 3A of the Superannuation (Unclaimed Money and Lost Members) Act 1999, the Fund may also be required to pay a former temporary resident's benefit to the ATO if more than 6 months has passed since the person left Australia. We do not provide an exit statement in these circumstances (relying on relief issued by the Australian Securities and Investments Commission). Former temporary residents can contact us or the ATO directly to find out how to claim their benefit from the ATO. Former temporary residents have a right to claim their super from the ATO under the Government's unclaimed money legislation.

MIESF will transfer a member's benefit to its nominated Eligible Rollover Fund (ERF) only if:

- a member's account balance is less than \$1,000 and
- we have not received any employer contributions for the member for 3 years or more, and
- the member is aged 40 or more, and
- the member has not responded within 28 days to correspondence offering to transfer their benefit to a superannuation fund of their choice.

If there is no response (in writing) after 28 days, the account will be automatically rolled over to AUSfund which is the Fund's nominated ERF.

You can contact AUSfund at:
PO Box 2468
Kent Town SA 5071
Telephone: 1 300 361 798
www.unclaimedsuper.com.au

ERFs are designed as holding funds and are required to provide member protection. The rate of return in the ERF may be lower than in another superannuation fund. Also, you will no longer receive any insurance cover as a member of the ERF.

Protecting your privacy

Your Fund holds personal information about you, such as your name, address, date of birth and tax file number, in order to provide your super benefits. This personal information may be disclosed as necessary to the Fund's administrator and professional advisers, insurers, Government bodies, employers, and other parties.

The Fund has a Privacy Policy that sets out in more detail the way your personal information is handled. If you would like a copy of the Fund's Privacy Policy, please contact the Fund's Privacy Officer on 1 800 252 099.

Like to know more?

As a member of the Fund, you should already have a Member Booklet or Product Disclosure Statement containing information about your benefits and rules governing the Fund. You also receive an Annual Benefit Statement containing important personal information about your benefits in the Fund.

Other documents relating to the Fund that are available for you to look at include the:

- trust deed
- investment policy statement
- latest audited accounts and auditor's report
- details of how the directors of the Trustee are elected and how they can be removed
- enquiries and complaints procedure

If you have a question about your benefits in the Fund, please contact the Fund Office. Please note that none of the Trustee, its directors and the Fund Office is able to give any personal financial advice relating to your own circumstances.

If you have a problem...

Most queries can be sorted out over the phone, but if we are unable to help you immediately, you may be asked to put your question in writing and we will reply within 28 days.

If you are not satisfied with the response, you should write to the Complaints Officer at the Fund Office, who will pass your complaint to the Trustee. You can expect a decision within 90 days.

The Trustee always seeks to resolve complaints to the satisfaction of all concerned and in the best interests of all members of the Fund. However, if you have followed the steps outlined above and are not satisfied with the outcome, you may be able to take the matter to the Superannuation Complaints Tribunal (SCT). The SCT is an independent body that aims to resolve certain types of superannuation disputes.

Any complaints must be lodged with the SCT within certain time limits. For more information about requirements and time limits, you can call the Fund Office or the SCT on 1 300 884 114.

If the SCT accepts your complaint, it will try and help you and the Fund reach a mutual agreement through conciliation. If conciliation is unsuccessful, the complaint is referred to the SCT for a determination that is binding.

Summary of benefits & costs

MIESF returns all of its profits to members Higher returns – Lower costs		
Earnings Allocated – Trustee Option	2011/12	2.2% p.a. (2.4% p.a. for Pension section)
Historical – Trustee Option	5 year average	0.5% p.a. (0.7% p.a. for Pension section)
	10 year average	5.5% p.a. (6.1% p.a. for Pension section)
	17 year average	6.4% p.a. (7.0% p.a. for Pension section)
	29 year average	8.4% p.a. (Pension section started in 1995)
High Growth Option	With effect from 31 January 2009, the Fund offers Main section and Rollover section members an investment choice which is referred to as the "High Growth Option". The earnings rate allocated for the High Growth Option was -0.8% p.a. for 2011/12.	
Net Assets at 30 June 2012		\$547 million
Size of Fund	Current membership	30,000
	Registered "active" employers	1,300
Management Fees	Administration	\$52 p.a. deducted from each account (increasing to \$67.60 p.a. from 1 January 2013).
		0.48% p.a. of your account balance when it is invested in the Trustee Option or 0.37% p.a. of your account balance when it is invested in the High Growth Option. These are the Fund's investment related costs. There are no exit or entry fees.
Death Cover	Eligible members under 65 have \$200,000 of death cover. \$5 per week is deducted to cover the cost.	
Pension Section	Members aged 55 or over can start a MIESF Pension with the same low "Management Fees" as set out above.	
Voluntary Contributions	Voluntary member contributions can be made at no extra cost and may qualify for government co-contributions. Please note that if you are aged 65 or over, you will need to be employed on at least a part-time basis to make voluntary member contributions. If you are 75 or over, you cannot make these contributions into superannuation.	
Your Industry Fund	MIESF was established over 30 years ago. It operates Australia-wide as a multi employer fund providing superannuation for people working in the meat industry.	

The above is only a summary.

Details of the Fund's benefits, costs and operations can be seen in our latest Product Disclosure Statement (PDS) dated 22 June 2012.

There is also a PDS for the Pension section members dated 1 March 2011.

You can view these PDS's on line at miesf.com.au/pds.htm or if you would like a printed copy, please call 1800 252 099.

You should refer to the Fund's PDS's before making a decision about the Fund.
